About Us

Tiriculum Power (PTY) LTD for short known as TP is founded on the principles of empowering clients through responsible and ethical business practice and operation. Tiriculum Power (PTY) LTD is an electrical contracting business specialising in design, supply & installation in the following; electrical infrastructure, sustainable & renewable energy solutions as well as electronic infrastructure (ICT Solutions). Tiriculum Power (PTY) LTD is a full-service electrical contractor working throughout South Africa, having collectively over a 100 years of experience in the electrical field and industry. Our services range from residential, commercial and industrial in electrical, renewables and electronics. Our electricians are trade tested trained and have in house innovative technical experience and will handle projects in a safe and timely manner.

We strive to empower young individuals to gain our knowledge and experiences for upliftment in their personal growth. We establish relationships with all clients' based on our service, performance and professionalism. At the core of our work is business ethics – striving to be transparent in our pricing, timeous troubleshooting and ensuring our team provides unparalleled service and product satisfaction to the clients'.

We cater to our clients' needs from design, supply and installation. Our mission is to be the best and most sought-after electrical contractor in South Africa. To ensure this, Tiriculum Power (PTY) LTD is committed to providing our clients' with quality service and professionalism. We are dedicated to fulfilling our clients' needs and expectations – and maintain our standards of excellence with:

Globally and at home in South Africa there has been a clarion call for urgent climate action with the United Nations Sustainable Development Goal to achieve a transformation of energy access and transition by 2030. Power is empowering and this is at the core business value of Tiriculum Power (PTY) LTD. However, how do you give homes and industry access to electricity without adding to the current climate crisis? It is with this in mind, that Keyurann Govender launched Tiriculum Power (PTY) LTD to accept the global challenge of generating energy and accessing power responsibly – thereby making his mark to ensure a more prosperous, equitable and sustainable future for people and the planet.

Vision

The Tiriculam Power (PTY) LTD Vision is to be the best and most sought-after electrical contractor in South Africa, eventually expanding our renewable and sustainable energy footprint across the country, region and continent. Being the best does not necessarily equate to being the biggest company. Our quality and service, no matter the size of the project will ensure that we reach our ultimate vision. Clients' must liken the name Tiriculam Power (PTY) LTD to A+ Grade installation.

Mission

Tiriculam Power (PTY) LTD embraces the global call for a more prosperous, equitable and sustainable future for people and the planet. This has inspired our company's mission statement: "Empowering our clients through sustainable, efficient, effective and professional service"

Our strict protocols ensure we honour the client through quality service, quality products and respect project timelines. We work with a team of professional electricians who share in this mission statement to ensure that every project is completed to a high standard. From the skilled staff to quality materials, Tiriculam Power (PTY) LTD will soon empower the construction industry in South Africa.

Managing Director

Keyurann Govender holds an Electrical Engineering Diploma from Tshwane University. In addition, he has completed various Project Management Courses. Keyurann's interest in the electrical field began at an early age stemming from his families involvement in the industry. This inspired Keyurann to learn more about the industry and soon it sparked a passion.

Since graduating, he started on site working his way up to positions as a Program & Planning Co-ordinator, Project Co-Ordinator, Project Manager, General Operations Manager and General Manager. Keyurann has also completed courses in renewable and solar energy. Keyurann founded Tiriculam Power (PTY) LTD with the ultimate aim to take renewable energy across the region and continent.

His experience gained from the industry whilst playing a major part in the completion of the following projects:

- Deloitte River Creek
- Middelburg District Hospital
- Chris Hani Baragwanath 500 Bed Hospital
- ABSA EOH
- ABSA Tower Main Tenant Fitout
- AWS (Amazon) Data Centre
- Tlhabane Square

His work ethic and diligence saw him running the daily business management operations at his last employer. In this time he created and maintained strong relationships with suppliers, clients and other industry contacts, giving Keyurann the confidence to start his own journey. This ignited the start of Tiriculam Power (PTY) LTD. At the heart of Tiriculam Power (PTY) LTD is ethical and responsible business, from human resources, client and supplier relations to ensuring ethical business and environmental practice.
